

WATCHMAKING WORKSHOP

Change places with a watchmaker.

Under the guidance of watchmaking professionals, this workshop immerses you in the world of the infinitely small.

From gears and springs to the escapement and balance wheel, you'll have the unique opportunity to take apart and re-assemble each and every part of the UNITAS 6497-1 movement. You'll experience the thrill of getting a mechanical watch to tick again.

This watchmaking workshop lasts **3:30** hours

Accessible **for everyone**, from amateur to connoisseur in watchmaking

You can also offer this workshop thanks to our **gift certificates**

Dates, venues and workshop price can be found on our website:
www.hautehorlogerie.org/atelier
